8 Pin Single Inline Package

NJR CORPORATION now offers several Bipolar Op Amps in the Single Inline Package utilizing just 8 pins, designated by the part number suffix “L”, e.g.: NJM4560L. This part number replaces the obsolete NJM4560S, for instance.

With this new 8 pin package version, the following benefits are realized:

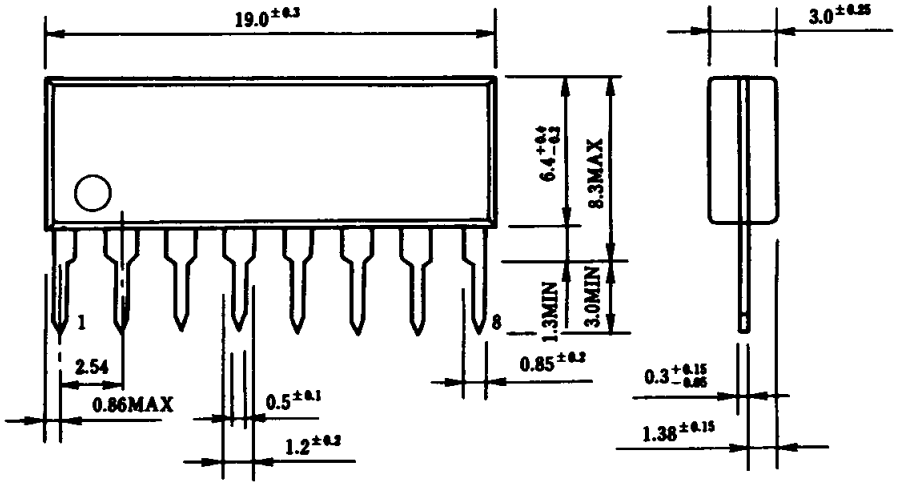
1. Improved price due to lower material cost
2. Smaller size reduces PCB real estate overhead
3. Fewer holes to drill simplifies PCB design

These factors combine to substantially increase the value of these devices.

Among the part numbers affected are:

NJM2904L	NJM3414L	NJM4562L	NJM4580L
NJM3404AL	NJM4560L	NJM4565L	NJM5532L

SIP8



Unit: mm
