

### New Japan Radio Co., Ltd. Achieves ISO-9001/9002 Certification

NJR CORPORATION has announced that it's parent organization, New Japan Radio Co. Ltd., of Tokyo, Japan has been awarded a Certificate of Registration by the Japan Quality Assurance Organization on behalf of the International Standards Organization, Geneva, Switzerland. With the award of Certificate number JQA-0686, New Japan Radio Co. Ltd. became fully compliant with ISO-9001/9002 standards. The certificate, which was awarded on November 25, 1994, states that NJRC is in full accordance with specifications ISO-9001-1987 /BS 5750 : Part 1: 1987/ EN29001-1987 / JIS Z9901-1991.

This ISO-9000 certification is given for "the design/development and manufacture of:

- Semiconductor Integrated Circuits
- Microwave Diodes and Transistors, GaAS Infrared Emitting Diodes, Silicon Photo Diodes and Transistors, Photo Couplers, Photo Reflectors
- Microwave Tubes, Front End, Circulators, High Power Limiters
- Security Sensors, Satellite Communications Components, Identification Systems
- Photo Sensing Modules, Radio Frequency Modules
- Infrared Sensors
- Cathode"

The certificate further states that products made by New Japan Radio Co., Ltd. for the National Government Organization are outside of the scope of this agreement.
